

## Martinis in a jar

Melbourne Martini is producing genius single serve cocktails in jars in delicious flavours of Espresso Martini, Tequila Margarita, and Salted Caramel Espresso Martini. Preparing these cocktails is as simple as putting them in the fridge, shaking before serving and... drinking. You can drink straight from the jar or pour them into cocktail/martini glasses for the real deal. The flavours can be bought individually, in a four pack or in a case. They're easy to keep stored for chilling and serving later too.

## Funch munchies

Lisa Bourne, the co-founder of health food snack company Funch, believes the secret to halting your sugar addiction in its tracks is keeping it natural and sticking to the motto - 'Can't pronounce it? Don't eat it!' The Funch range aims to help us do just this, by providing easy mixes to make a range of yummy but nutritious snacks. Funch's range includes DIY Premixes for Protein Balls, Bliss Balls, No Bake Slice, Muesli Bars and Cookies. Each recipe is simple to follow and requires the addition of only two, readily available ingredients.

**Weet-Bix Cholesterol Lowering is the first cereal product in the country to harness plant sterols to effectively reduce cholesterol levels in a single serve. It is clinically proven to reduce cholesterol levels by up to 9 percent in four weeks, with just two biscuits consumed daily.**

## The Good Doctor

Dr Daniel Lanzer is a Dermatologist and Cosmetic Surgeon with more than 27 years' experience. He has spent many years studying how the skin and its cells work. This research is what encouraged him to develop his own anti-ageing skincare range D'Lumiere Esthetique, a very potent and effective skin care regime that was designed, developed and manufactured in Australia. D'lumiere Esthetique targets specific problems which include ageing and sun damaged skin; and includes active medical ingredients such as Vitamin C, Retinyl Palmitate and Nicotinamide. D'Lumiere Cosmetics contains a plant derived DNA extract, using this product of nature to protect and heal the skin. It's called a "DNA Repair Enzyme" and it is based on a Nobel prize winning study.

## A CLEANER CLEAN

The inimitable Liquid Skin Care (Lqd®) brand has introduced Body Wash, designed specifically for sensitive, reactive skin. Body washes usually contain ingredients such as sulphates and parabens that exacerbate conditions such as rosacea, dermatitis and eczema. The Lqd® range contains soothing ingredients, such as aloe vera, jojoba, rosehip and avocado oils as well as Coasetm (Coffea Arabica Seed Extract) which acts as a super antioxidant, stimulates collagen and elastin synthesis, and improves moisture retention. Lqd Body Wash is one of the purest products on the market for sensitive skin. Benefits come from the elimination of all known irritants. [Lqd.com.au](http://Lqd.com.au)
